CompTIA® CLOUD Essentials

Course Title: CLOUD Essentials

Delivery Mode: Classroom, Virtual Classroom

Duration: 3 days

Course Description

The Cloud Essentials course is a 3-day, interactive, classroom and hands-on based learning experience. The course provides a balanced curriculum and addresses the business and technical perspectives of cloud computing. It will also explain how to adopt, operate, and govern the cloud. The course enables participants to successfully complete the associated CompTIA Cloud Essentials™ Exam. In addition, the course complements the Virtualization Essentials course, which they can do either before or after they've taken the Cloud Essentials course.

Audience

IT Support Staff, IT Consultants, Business Managers, Business Analysts, Small and Midsized Business Owners, Specialist (IT, security, infrastructure, services, systems, test, and so on), Business Process Owners, IT Developers, Service Providers, System Integrators, Architects, Consultants, IT Management

Learning Objectives

At the end of this course, participants will be able to:

- Understand the common terms and definitions of cloud computing.
- Understand the business benefits and business considerations of cloud computing.
- Understand cloud computing from a technical perspective and recognize the various techniques, methods, challenges, and types of clouds.
- Understand the impact and changes of cloud computing on IT service management.
- Explain typical steps that lead to the successful adoption of cloud computing and understand the implications for organizations.
- Recognize the compliance, risk, and regulatory consequences of cloud computing and its financial and strategic impact on an organization.

Why Training from EBITA?

Case Study & Group discussions Based learning

- We believe in '**experiential learning**' and we enable this through a **case-study approach**. All the concepts of ITIL Foundation will be through a case-study which will depict a **near-real time scenario**.
- Participants will be encouraged to take active part through **group-discussions** - the classroom will be split into groups and each group will have to address a part of case study.
- Participants will be able to **relate concepts** to their working world, also help them to go back and attempt **application of concepts**
